Tigerloop Oil De-Aerator

More than just a problem solver! Whether it's air elimination, nozzle coking problems, vacuum reduction, oil preheating, or just the elimination of that potentially leaky return line, Tigerloop is today's safe, economical choice for all oil supply systems. The Tigerloop is a product designed to meet increasing demands for energy savings, and the environment.

Ecostyle Panel Radiators and Towel Bars

**10^{YR}
WARRANTY**

Ecostyle Radiator Panels Provide exceptional radiant heat while adding style to a home. Radiant heat acts like the sun, heating objects and people, not just air. This even warmth minimizes cold spots and drafts throughout the home. Ecostyle Radiators are equipped with integrated flow-regulating valves which provide the flexibility to individually control each radiator. The feature offers a convenient and inexpensive means of sub-zoning. Ecostyle radiators are designed not only for style and efficiency, but also resiliency. The radiators are manufactured from high quality steel and finished with high gloss stove enamel, making them scratch and corrosion resistant. With clamp mounting brackets and bottom connections, the Ecostyle Radiators are easy to install and reversible.

Each radiator is guaranteed for 10 years from the date of installation against defects caused by faulty materials or manufacture. The defective product is replaced by a similar or technically corresponding radiator.

Ecostyle Towel Bar Radiators

Style Towel Bar Radiators have long been used in Europe to heat bathrooms, kitchens, hallways, etc. without wasting valuable wall space. These radiators are designed to offer comfort and elegance to all types of interiors.

Ecostyle Towel Bars Available in Straight Back or Curved Back Styles.

DESIGNER SERIES RADIATORS

Narbonne

Narbonne Architectural Radiators are composed of several interconnected flattened bar heating elements with convector fins welded to the back of the radiator bars. Narbonne radiators are available in both horizontal and vertical flat bar arrays.

Narbonne Horizontal Radiator

For a simple, elegant appearance with high outputs to match, the sleek, smooth Narbonne will complement any interior from traditional to ultra-modern décor.

Narbonne radiators are guaranteed for ten years.

PCV

PCV Designer Radiators Panels bring an upscale look to heating installations with their horizontal ribbed profile and smooth contoured edges and corners. PCV Panels blend seamlessly into both traditional interiors and more modern decors. With a variety of heights, up to 36", PCV panels can be installed in almost any location.

RCV

RCV Designer Radiators Panels bring an upscale look to heating installations with their horizontal ribbed profile and smooth contoured edges and corners. RCV Panels blend seamlessly into both traditional interiors and more modern decors. With a variety of heights, up to 36", RCV panels can be installed in almost any location. Their high output per foot enables less wall space to be occupied giving more freedom to locate furniture and decorations.

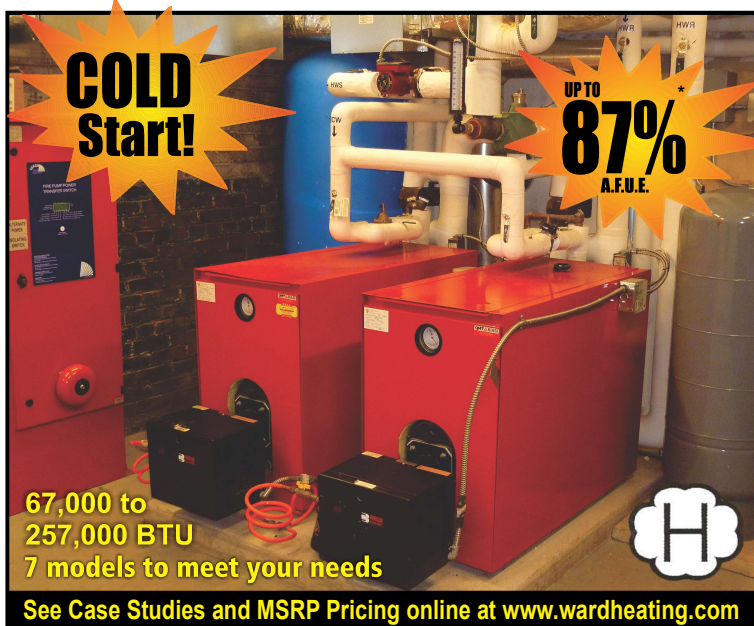

Narbonne Vertical Radiator

BIASI

B10 CAST IRON BOILERS

FULLY APPROVED & FULLY CONVERTIBLE FOR

OIL - PROPANE - NATURAL GAS

(just swap the burner)

If your customer can't make a decision due to future availability of another fuel type

-OR- because of the rising price of fuel

-OR- costly tank change concerns, then BIASI is the perfect answer!

Quote the best option for your customer - offer BIASI with its LIFE-TIME, "TRUE BLUE" block warranty.

Your customers will thank you for it.

B-10
7 Models FROM **67,000** TO **257,000** BTU/h OUTPUT

Every Biasi B10 & B40 is fully approved and labelled for all fuels

QHT BIASI B-40 SERIES COMMERCIAL CAST IRON BOILER

- Three Pass Design. The BIASI B-40's heat exchanger path is up to 15 feet and the three pass design heats up more surface area, with 25% less heat loss than pin-type boilers.
- Cold Start Boiler. Made of GG20 Flexible Cast Iron that is corrosion resistant.
- Equipped with Ultra High-Efficiency "gun-Type" Power Burner. Significantly higher than atmospheric gas burners.
- Low Water Volume increases responsiveness and efficiency.
- ASME Certified to 58 psi.
- Swing Door that allows easy access for cleaning and maintenance.
- Multi-fuel Capability. Interchangeable & Approved for Oil, Propane & NG.
- Extra Heavy Insulation for low jacket and standby losses. ASME Approved, IBR Listed and CRN # 7608.0

OIL - PROPANE - NATURAL GAS

COMBUSTION ANALYZERS

**BEST
VALUE!**

Testo 310 - Combustion Analyzer

Advantages of the Testo 300

Brilliance you can touch

- Intuitive touch operation
- Perfect read-out at all times
- Self-explanatory measurement menus

Fast on: No more waiting

- Immediately ready to go from stand-by mode

Paperwork was yesterday

- User's own comments in report
- Customer's electronic signature
- Customer data in instrument

Connected to your smart world

- Send reports by wireless LAN

Nonstop measurement

- Newest gas sensors for more applications
- Up to 5 year manufacturer's warranty

New for 2020 Testo 300

The Testo 300 flue gas analyzer is ideal for the most important measurements involving heating systems. It combines decades of experience in measuring technology with contemporary smart-touch operation, robust construction and e-mailing of reports. The Testo 300 enables easy measurement of flue gas, draft, pressure, ambient CO and differential temperature.

Features:

- Durable Carrying Case
- Spare Filters & Li-ion battery
- 2-year Sensor Warranty
- Five line backlit display
- 10 hr. Li-ion rechargeable battery
- Pre-programmed with 5 fuels
- Infrared Printer & Paper
- 12" probe and 4' hose

Measures:

- O₂, CO (w/ NOx filters standard), CO₂
- Draft & Pressure
- Temperature (flue & ambient)
- Combustion efficiency & excess air
- Undiluted CO (CO air free)
- Ambient CO

MN29-26: Package of 50 precut strips and smoke scale per tube. Paper is suitable for Bacharach, Dwyer, Testo and Smoke Check.

BACHARACH POCKET-RITE DRAFT GAUGE

\$210⁵⁰ each

The Bacharach Pocket-Rite Draft Gauge is suitable for checking flue pipe, chimney, fire box, smoke hood, smoke pipe draft, draft regulator, oil burner firing rate, and basement ventilation. Range: +0.10 to 0 to -0.14" W

Order#: B 13-3000

BACHARACH MZF DRAFT GAUGE

\$430⁰⁰ each

The highly sensitive Bacharach MZF Draft Gauge requires no liquid or tedious leveling; this dry type instrument is always ready for immediate use. Ideal to measure furnace draft and pressure drop across air filters. Order#: B 13-7019

UEI COMBUSTION ANALYZERS

Smartbell PLUS Kit

Complete With:

- EOS Technology Sensor Direct CO₂ Measurements & 10 Year Life Expectancy
- Direct CO Measurements
- Pre-Programmed Fuels: Light & Heavy Oil, Wood, Propane, Natural gas
- 5 Year Limited Warranty
- Flue Probe KMCP70
- Protective Boot w/ Magnet
- Soft Carrying Case
- Pressure Tubes w/Fitting 2(BF100)

Measures:

- CO
- Co₂

Calculates:

- Temp
- O₂
- Excess Air
- Efficiency

C75 Eagle KIT

The C75 Analyzer is the basic model and offers a cost alternative for residential combustion applications.

Measures:

- Flue temperature, oxygen,
- carbon monoxide (CO)

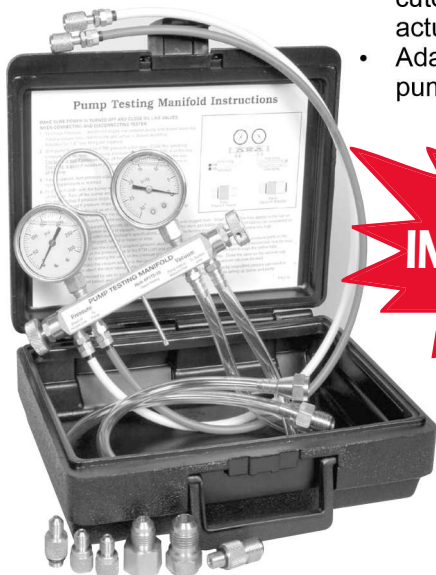

Calculates:

- Carbon dioxide
- efficiency
- excess air
- CO air free

OIL BURNER TESTERS

PUMP TESTING MANIFOLD

- MP115-10 Features:**
- Accurately checks pressure, cutoff and vacuum under actual operating conditions
 - Adapter fittings for all pumps, including Riello

HANDY & INNOVATIVE 3-in-1

\$317²⁵ each
ORDER # MP115-10

MITCO KWIK CHECK II **\$137⁵⁰ each**

Order#: MP115-2M

Pressure & Cut-Off Tester

Tests pump pressure and cutoff of fuel oil pumps quickly and accurately without removing the pump from the oil burner. Can be used on all pumps with operating pressures up to 300 psi.

For Riello Pumps add:
Order # MP115-14M
Riello Adapter Kit \$15.50 ea

MITCO OIL WATCHER **\$80²⁵ EA**

Order No. MP115M

Clear tubing and fittings provided to adapt to any suction line. The oil watcher vacuum gauge enables the service technician to analyse problems caused by oil impurities, leaks and high restrictions.

It Pays to Invest in Testers

Testing Equipment definitely takes the guess work out of servicing burners. This saves you time and money during service calls. Want to make more money and improve your profits? Buy oil burner testers – they are definitely worth the investment.

OIL BURNER TRANSFORMER TESTER

Order# B SC-2100

- Check all makes & models of oil burner ignition transformers
- Checks **both** old AC Transformers & new electronic ignitors!

\$87⁶⁰ each

SAFETY FIRST!

SOLID STATE IGNITOR TESTER

Order No. MT400M

Using the T400M is the best method of accurately, quickly and safely testing solid state electronic ignitors. Works on all solid state oil ignitors, standard gas ignitors and Riello oil and gas ignitors. No Connections Req'd

\$137⁰⁰ EA

DELUXE IGNITION TRANSFORMER TESTER

Can be used *without removing the transformer* from the oil burner. Identifies a transformer that is deteriorating, even though it may appear to have an adequate spark.

Order#: MT389

\$200⁰⁰ each

CAD CELL TESTER

\$145⁰⁰ each

Quickly checks the cad cell relay and the cad cell eye, without removing either from the burner.

- Checks all models of cad cell relays and cad cell eyes
- Accurate and reliable
- High impact case

Order#: ME55-2

Heating Oil Leak Detection

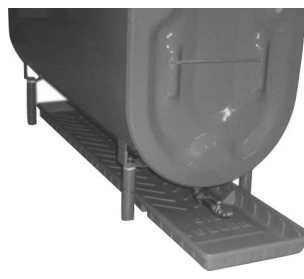

For Indoor Tanks, Filters and Burner Applications

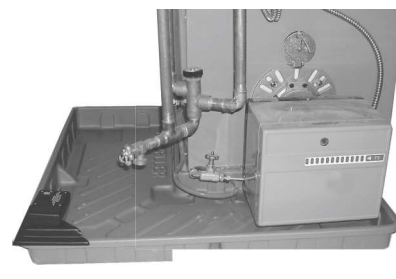

Rectangular Filter Trays for burners and/or filter leaks

Wide Trays for New 200 & 250 Gallon Steel Tanks

Narrow Trays for Retrofitting Existing Tanks

L-Shaped Burner Trays for Burner, Filter & Connections

Oil Yeller Tray Features:

- Promotes clean and safe heating oil storage
- Designed to capture leaks from tank, filter, burner fittings or overflow situation.
- Designed to protect environment during annual filter replacement. No drips on the floor.
- Material: Oil Resistant High Density Polyethylene.
- All tank trays extend approximately 1ft beyond tank to accommodate filter and valve connections
- Choose from two options for tank trays: Wide trays for new 200 and 250 gallon tank installations and Narrow trays for retrofitting existing tanks
- L-Shaped Burner Tray fits under burner and around furnace or boiler. Simply slides in place.
- Rectangular Filter Tray fits under burners and/or filter applications.
- Prevents common leaks and spills from damaging the home or business environment
- 5 Year Warranty

Oil Yeller Alarm Features:

- Prevents leak detection alarming
- Trips immediately in the presence of pooled oil
- Velcro mounted for easy installation
- Two models to choose from: 9 volt battery or direct connection to security system
- Typical 9 volt battery performance 3 years (10 years lithium)
- Low battery warning alarm
- Easy self check design and reliable spring loaded float design
- Five Year warranty

Recommended protection by insurers and fire marshals

WARD HEATING PRODUCTS

FPPF SPECIALTY FUEL OIL TREATMENTS

SBG "Sludge Be Gone" Sludge Remover

SBG Fuel Oil Sludge Remover is formulated to eliminate sludge and water. SBG also helps to improve atomization and will provide a more efficient combustion.

Features:

- Cleans filters and strainers
- Provides for more efficient combustion
- Dissolves all types of sludge into a combustible substance that will not clog nozzles

HOT 4 in 1 Heating Oil Treatment

HOT is a concentrated Heating Oil Treatment that provides superior winter and year round protection for outside, Inside and underground storage tanks.

Features:

- Disperses water and controls waxing and gelling
- Improves combustion for more BTUs
- Helps stabilize fuel
- Removes varnishes from pumps and filters
- Prevents corrosion in the entire fuel system

CAST IRON RADIATORS

Victoria Cast Iron Radiator

The design of the Victoria radiator is exceptionally functional, as well as beautiful. The timeless elegance of ornate casting makes this radiator the perfect solution for any style or time period home, whether traditional, modern or historical.

Gov-Free Free Standing Radiator

Gov-Free traditional radiators offer updated styling and trim lines. They are available in several standard dimensions and can be assembled with any number of sections. Gov-Free is suitable for both residential and commercial applications. This radiant heat - combined with convected heat - provides a warm comfortable environment. It shields outside walls and windows to stop cold air from infiltrating.
